

I am writing on behalf of K-LOVE radio, which I have been a listener and financial supporter of for the past seven years. Many of my family and friends are also listeners and supporters, and we wish to tell you that without K-LOVE in our individual communities, from Oregon to California to Tennessee, we would not receive the much needed "positive and encouraging" programming throughout our days! We can always rest assured that the content of the broadcasts are "family friendly", and we don't have to worry about unsavory song lyrics, inappropriate advertisements, and questionable role-models. Please do not replace K-LOVE with something that would not have the same wholesome values they do in our communities. Please do not replace K-LOVE at all! Thank you for your time. Niki Garrison
